OUR PURPOSE

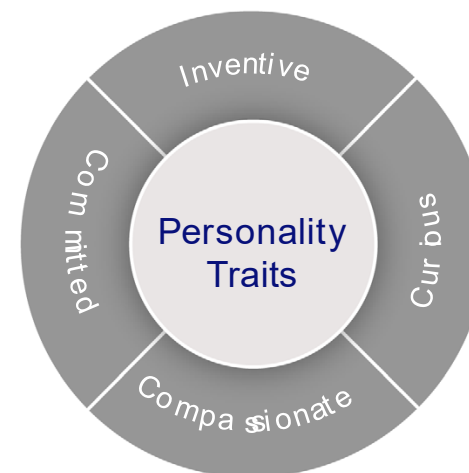

**Making people's lives healthier,
safer and more fulfilling**

An inventive, compassionate creator

It takes invention and curiosity to create the new, to be a pioneer. For Olympus this also means being compassionate, committed to creating value for society and improving human life. Because a pioneering spirit is nothing without a worthwhile purpose.

Value Alignment

Agility – We challenge the status quo with open minds, focus and speed

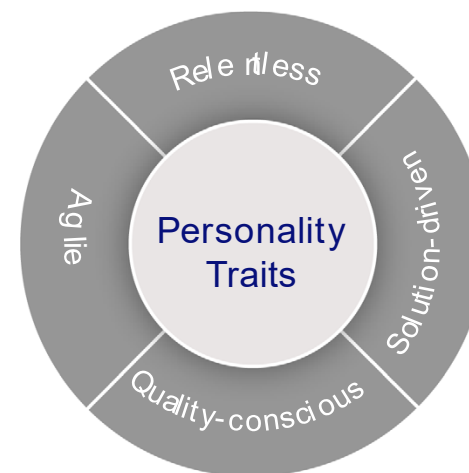

Empathy – We care about all of our stakeholders

Long-term view – We look beyond the present to deliver future value

Pursues excellence with agility

Olympus is relentless in its pursuit of excellence, constantly striving to deliver the highest quality solutions in everything we do. With society's needs always changing, our passion to contribute to the health and well-being of people worldwide motivates us to remain flexible and agile in our search for the best solutions.

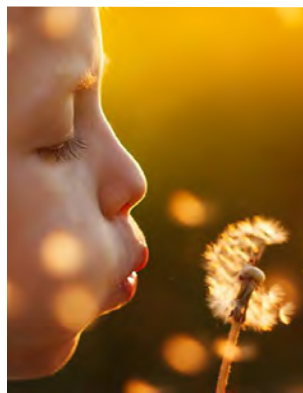

Value Alignment

Agility – We challenge the status quo with open minds, focus and speed

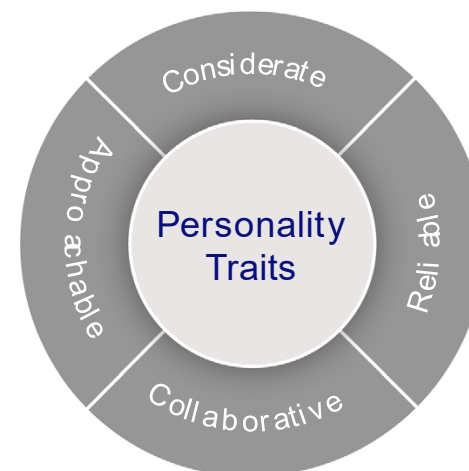

Long-term view – We look beyond the present to deliver future value

Unity – We are strongest when we work together as a team

A considerate collaborator

Olympus does not operate alone. We always listen to others, are there when needed and strive to earn their trust through mutually beneficial relationships. This is at the heart of our collaborative spirit.

Value Alignment

Empathy – We care about all of our stakeholders

Integrity – We are trustworthy and act in good faith

Nuro exists to better everyday
life through robotics.

First up: tackling
local last-mile
delivery.

<https://www.nuro.ai/careers>

A low-angle shot of a person's legs and feet walking on a paved surface. The person is wearing dark trousers and dark lace-up shoes. To the right, the front corner of a white Nuro robotaxi is visible, showing its distinctive black wheel and sensor array. The background is a blurred outdoor setting with greenery and a blue wall.

We're building
a special team.

We are actively hiring for....

01

Data Collection Specialist
(Safety Driver)

02

Autonomous Vehicle
Operator

03

Fleet Technician Junior and
Fleet Technicians

04

Fleet Supervisor

05

Fleet Manager

<https://www.nuro.ai/careers>

Position Breakdown

Autonomous Vehicle Operator (AVO)

- You will safely operate our autonomous vehicles and robots up to 8 hours a day, 5-6 days a week
- You will collaborate closely with our talented software & hardware engineers, as well as software operations specialists to advance our technologies and internal workflows, and ultimately help craft our product roadmap
- Utilize proprietary software to collect data and troubleshoot in a variety of real world situations, while simultaneously providing detailed and accurate feedback to our engineers
- You will occasionally interact with members of the public to educate them on autonomous vehicle technologies and behaviors

<https://www.nuro.ai/careers>

Data Collection Specialists (Safety Drivers)

- Safely operate Nuro test vehicles as equipped for typical drivers up to 8 hours a day, 5-6 days a week (FT) / 2-3 days a week (PT) on public residential roads in various weather conditions
- In addition to driving, you will also ride as a passenger in our vehicles and record significant observations in a clear manner
- Collect data and troubleshoot in a variety of real world situations, while providing detailed and accurate feedback to our engineers
- Conduct daily vehicle pre-inspections prior to leaving facility

<https://www.nuro.ai/careers>

Junior Fleet Technician

- Ability to drive trucks with trailers to load other vehicles
- Perform sustaining tasks including fueling, charging, cleaning, and supply runs
- Replace tires on robots and Fleet vehicles
- Learn and have the ability to perform vehicle extractions from public roads with the use of truck and trailer and other company assets
- Implement daily vehicle checks and tasks to maintain efficient fulfillment of deliveries and high vehicle uptimes
- Document all vehicle tasks and issues in our Fleet Tracking system
- Ability to use handheld remote controls requiring finger dexterity
- Effectively communicate and collaborate with Fleet Technicians, Fleet Supervisor, and other cross-team members
- This position will require occasional long periods of sitting in a vehicle
- Be flexible with an evolving work schedule and open to working an AM or PM shift with overlapping weekends
- Willing to travel to different sites and locations
- Ability to lift 50lbs and work in a variety of physical conditions

Fleet Supervisor

- This is a “hands-on” job requiring onsite attendance
- Hire, train, manage, scale, and motivate a junior fleet technician team to support the location.
- Manage a team of fleet technicians to plan, coordinate, deploy, extract, and maintain our fleet of autonomous robots on public roads located at our Mountain View, CA depot
- Take the initiative in understanding and communicating any vehicle issues related to safety, hardware, software, chassis, or maintenance
- Document and ensure accuracy of all vehicle tasks and issues in our Fleet Tracking system
- Navigate and run script-based computer systems
- Assist in maintaining fleet uptime through execution of improvement initiatives
- Effectively communicate and collaborate with Fleet Technicians, Fleet Management, Engineers, and operators to ensure that our fleet is well-maintained
- Respond to and handle emergency situations with composure
- Oversee safety within Nuro depots and managing all vehicles
- The ability to effectively drive truck & trailer and / or tow vehicle

<https://www.nuro.ai/careers>

Fleet Manager

- Oversee installation/validation of our autonomous Hardware and Software systems, preventative maintenance, calibrations, and on-going system troubleshooting while onsite for your city location above.
- Hire, train, manage, scale, and motivate a fleet technician team to support the location.
- Take the lead in understanding, communicating, and resolving any vehicle issues related to safety, hardware & software failure, or preventative maintenance.
- Actively collaborate with engineers, technicians, program managers, fleet managers, and operators to ensure that our fleet is well-maintained.
- Direct accountability of an operational budget and financial tracking of all expenditures for your location.
- Participate in continuous improvement initiatives at the city operational level; share or implement those solutions in a timely fashion.
- Create and implement daily vehicle inspections and sustaining tasks to maintain efficient fulfillment of deliveries and high vehicle uptimes.
- Ensure procedures are followed and checklists completed on a daily basis by your staff utilizing proper escalation procedures as necessary.

Our Company Values

01

We tackle the impossible.

We tackle some of the most **complex technical and operational challenges** of our generation which means we operate on the **frontier of what is possible**. We set ambitious targets that stretch our abilities and can often feel uncomfortable. This requires **perseverance, resilience and a shared passion** for building something extraordinary.

02

We have a high bar.

Solving the most difficult technical challenges requires us to have the **world's best talent**. Like every great team in history, we want the **best player in each position**, which requires us to diligently search for each team member. We believe in working on the **toughest challenges with the smartest and most collaborative colleagues**. We value thoughtfulness, a sense of urgency and a commitment to high-quality output and hold people accountable to demonstrate these attributes on a daily basis.

03

We do the right thing.

We operate with integrity. First, **we prioritize doing what's right**, not doing what's easy. We put long-term interests ahead of short-term convenience or ease of execution. Second, **we believe in transparency**. We believe in sharing the context & rationale behind decisions & making information widely available to all Nurons. Third, **we believe that building a diverse team gets us to the best outcome for the company**; the best decisions result from a robust debate of differing opinions but we also believe in respectfully disagreeing & supporting the outcome once a decision has been made.

04

We take ownership.

We encounter difficult challenges every day, and we're quick to find solutions to those challenges. This **requires a mixture of aptitude to identify solutions and attitude** to remain positive in the face of adversity. Nurons do not point the finger of blame but instead point the torch towards possible solutions. We believe that only decisions made in the best interest of Nuro will lead to personal success for us all.

LifeSTEPS Corporate Office
3247 Ramos Circle, Sacramento, CA 95827
916-965-0110

Heinzen Manufacturing International

405 Mayock Road

Gilroy, CA 95020

PHONE: 408-842-7233

OUR FACILITY

THE HEINZEN FACILITY makes Gilroy its home. We have a state of the art facility allowing the ability to perform nearly every process of production in house. Our front office houses all of our accounting, logistics, and sales staff, with engineering sitting up stairs. Just outside the office, more than 45 employees make up our production department, filling positions ranging from sheet metal and machinists, to fabricators and assembly technicians. This close proximity allows all of our staff to work together, and be in immediate contact with each other, at all stages of a project's development.

At a glance:

- Full CNC Machine Shop
- Full Sheet Metal Shop
- Full Fabrication Department
- QC and Inspection
- Robotic Welding Capabilities
- 24 Fabrication Bays
- Logistics Department handling all of our shipping and receiving
- Fully stocked Parts Department
- 40,000 sqft of Production Floor
- 8,000 sqft of Office/Engineering Space
- R&D Lab attached to our Engineering Office

Warehouse Stock Clerk:

Receives, stores, and issues spare and replacement parts, equipment, and expendable items.

- Takes inventory of parts and equipment and maintains inventory records.
- Counts, sorts, or weighs incoming items to verify receipt on purchase orders or invoices.
- Examines stock to verify conformance to specifications.
- Communicates damaged stock issues and refusal of shipments.
- Distributes stock to production workers, records material issued.
- Pulls parts and materials for jobs and projects.
- Troubleshoot incorrect deliveries to prevent delays to production process.
- Moves or transports material or supplies using hand or industrial trucks as needed.

Other:

- Provides, by example teamwork, and a positive attitude, to all coworkers.
- Must have excellent communication skills
- Must be able to lift 50 lbs
- Must be able to drive a forklift

Financial Controller:

- A. Plans and directs the day-to-day activities of the financial, accounting function including providing direct and indirect supervision to Accounting staff and Human Resources staff.
- B. Maintains current knowledge and understanding of operational and personnel policies and procedures.
- C. Monitors and maintains financial budgets throughout the company including monitoring spending and weekly cash flow requirements for each department.
- D. Serve as Controller of billings, payments, payroll, collections, tax reporting, Cost Accounting activities, and other accounting and financial reporting as necessary.
- E. Maintains accounting records and be responsible for development, analysis and interpretation of statistical and accounting information.
- F. Directly processes daily financial accounting data and performs ongoing audits of accounting processes and postings.
- G. Prepares a variety of complex accounting, statistical and narrative reports regarding financial transactions including producing key financial reports of Operations.
- H. Performs month end closing in coordination with accounting department.
- I. Reviews financial statements, performs analytical review for adjustments and reconciliations to supporting accounting modalities. ie, Inventory, WIP. Reviews with Heinzen LLC Partners for final reporting MTD and YTD.
- J. Compile financial statement data for year-end reporting to CPA to conduct a Reviewed Financial Statement suitable for presentation to lending authorities and banks.

- 
- A close-up photograph of two hands shaking in a firm grip. The hands are positioned over a white document with some faint lines and a small green object. The background is blurred, showing what appears to be a desk or office environment. The lighting is warm and focused on the hands.
- Self-motivated? Driven by excellence? Team Player? Enjoy a challenge? If you answered yes to any or all of these, we would love to meet you! Heinzens manufacturing and engineering environment provides a unique experience in a fast paced, results driven atmosphere.
