SAN JOSE WORKS REPORT AS OF DECEMBER 31, 2021

San Jose Works (SJ Works) is a City of San Jose-funded partnership between work2future and the City’s Parks, Recreation, and Neighborhood Services Department (PRNS). SJ Works has two tracks, (i) subsidized, in which the City covers the cost of stipends or wages for youth internships/jobs, and (ii) unsubsidized, in which employers cover the cost of stipends or wages.

SJ Works SUBSIDIZED program 7.0

To date, 334 subsidized employment opportunities for youth aged 14–18.

- Due to the pandemic, our goal of 375 participants will be reached within cohorts. With the success of the summer and fall cohort, the last and final pending cohort of 41 participants has begun and will run until April.
- Of the 334 participants, 90% of placed youth successfully completed paid internships subsidized by the program Retention methodology: Youth who have earned three paychecks or completed 100 hours in two pay periods.
- The subsidized model focused increasingly on Priority-Sector and In-Demand Occupation internships for high school youth.
- Of the 334 subsidized placements, 119 were in priority sectors—information and communications technology, health care, construction, advanced manufacturing, and business and finance—or in-demand occupations outside those sectors.
  - Youth were recruited from High School Career Technical Education classes focusing on the priority sectors and related in-demand occupations.
- The remaining 215 subsidized placements were with community centers, libraries, City departments and Council offices, or with nonprofit agencies.
- About 85% of the internship positions were virtual or a hybrid of virtual work and in person.
- In addition, San Jose Works piloted the first cohort of mentors. About 74 mentors committed to the program and 78 youth successfully completed the mentoring program. Mentoring was done in group sessions and will move to a 1-on-1 model for the upcoming cohorts with new mentees.
  - Alumni group of mentees and mentors continue to meet once a month
  - Mentors recruited from different companies such as Western Digital, Bank of America, Intel, City of San Jose departments, Boys & Girls Club, and others.

SJ Works UNSUBSIDIZED program 7.0

Staff have continued to work on the Unsubsidized component of SJ Works 7.0 during the pandemic. To date, 215 clients are enrolled and 102 have been placed in various positions and employers. Remaining clients have received a service or multiple services such as assistance in job searching, job applications, resume, financial literacy workshop, mock interview, or attended a job fair or interview.

Additional services provided to participating youth in both subsidized and unsubsidized components included career counseling, job readiness workshops, supportive services (e.g., bus passes), and financial education.
Staff have already begun working internally in preparation of SJ Works 8.0 for 2022-2023

- Participating youth will continue to have access to services such as job counseling, job readiness training, supportive services (e.g., transportation, clothing, etc.) and financial education.
- Program goal will remain the same of 375. If budget permits, we can increase the number of students served.
- SJW 8.0 summer youth and worksite recruitment has also begun
  - Summer program will begin June 20th and will run till August 2022
- Participants will receive $17.35 per hour and will receive a total of 120 hours to complete in 6-8 weeks.
- Program continues to recruit for more mentors and will begin to host informational meetings starting April.
  - Interest form and flyer has been created and shared on Mayor’s social media platforms.

WIOA In-School Youth Services Provider

[Action]
RECOMMENDATION

Approve authorization for staff to negotiate and execute a one-year agreement for Program Year 2022-23 (PY 2022), including options for contract extensions of up to four additional years based on successful performance and funding availability, with International Rescue Committee, Inc. as the provider of WIOA In-School Youth services.

The Executive Committee unanimously recommended Board approval at its meeting on February 24, 2022.

BACKGROUND

WIOA requires that 75 percent of Youth Program funds be spent on out-of-school youth, and work2future's service strategy until now has been focused on out-of-school youth. However, in PY 2021, the State granted local boards a waiver so they could spend up to 50% of funds on in-school youth services to provide additional flexibility to local boards to increase in-school youth enrollments of those who meet WIOA-defined youth barriers related to foster care, justice-involvement, and/or homelessness. It is not yet known whether this waiver will be extended through PY 2022. Nonetheless, work2future plans to begin serving in-school youth beginning PY 2022.

The RFP for an in-school youth service provider solicited proposals for unique and innovative services that link WIOA-eligible in-school youth to higher education leading to careers in the workforce development board’s (WDB’s) priority sectors and in-demand occupations. The RFP emphasized increasing the number of residents served who meet WIOA eligibility and are farthest from opportunity and intentionally focusing on Black, Indigenous, and People of Color (“BIPOC”) youth, foster youth, juvenile justice-
involved youth, Limited English Proficiency (“LEP”) youth, youth with disabilities, and young parents to ensure these young adults are not left out of the system.

**RFP Process**

The RFP for in-school youth services was released on January 10, 2022, on WebGrants, the City’s Grants Management system. In addition to posting the RFP on WebGrants, which makes it available to over 5,000 users, announcements of the release of the RFP were distributed to over 123 stakeholders, including work2future Board members, City Council offices, work2future partners, current providers, community colleges, non-profits from around the region, and other local WDBs.

A technical assistance conference was held on January 18, 2022, via Zoom. There was one attendee, who was not a potential proposer but a stakeholder that wanted additional information on the RFP. There were questions submitted from potential proposers via email, which were general questions regarding location of services, WIOA-specific definitions and requirements, and budgetary guidance. Responses to questions received at the conferences, as well as questions subsequently received via email, were posted on WebGrants for all proposers to view. The deadline for submittal of proposals was 4:00 p.m. on February 11, 2022.

**RFP Evaluation Criteria**

The RFP evaluation categories and point values were as follows:

- **Organization Structure, Experience, and Past Performance** 20 Points
- **Staff Experience and Qualifications** 20 Points
- **Employer Linkages** 20 Points
- **Service Delivery Strategy** 30 Points
- **Budget, Financial Management, and Financial Sustainability** 10 Points

**TOTAL AVAILABLE** 100 Points

The RFP rating panel was selected to avoid any situation where the evaluators could be subject to competing professional or personal obligations, or personal or financial interests, that would make it difficult for them to fulfill their duties fairly.

**ANALYSIS**

Two organizations submitted proposals:

- Center for Training and Careers, dba Conxion to Community
The WebGrants system averaged the scores of the review panel for each proposal and the scores were as follows:

<table>
<thead>
<tr>
<th>Proposing Organization</th>
<th>Points Awarded</th>
</tr>
</thead>
<tbody>
<tr>
<td>Center for Training and Careers, dba Conxion to Community</td>
<td>79.67</td>
</tr>
<tr>
<td>International Rescue Committee, Inc.</td>
<td>92.67</td>
</tr>
</tbody>
</table>

Based upon the final scoring from the rating panel, work2future staff recommends funding International Rescue Committee. According to reviewers, International Rescue Committee’s proposal had a good overview of services and employer connections and should be able to provide a comprehensive level of training to in-school youth so they can finish school and be considered for hiring by sector specific employers.

**BUDGET**

The budget amount allocation for in-school youth services for FY 2022-23 will be determined by work2future’s total WIOA allocation.

Preliminary Scenarios for Program Budget FY 2022-23

[Action]
TO: BOARD
FROM: Allain Mallari

SUBJECT: See Below
DATE: March 10, 2022

SUBJECT: Preliminary Scenarios for the Workforce Development Board (WDB) Program Operating Budget for FY 2022-2023

RECOMMENDATION
Approval of the following:

1. Three preliminary Budget Scenarios for Fiscal Year 2022-23, as follows:
   - Proposed FY 2022-23 WDB Program Budget based on a projected allocation of $5.976 million (base allocation, AS IS allocation),
   - Proposed FY 2022-23 WDB Program Budget based on a projected allocation of $5.677 million (5% reduction from FY 2022 allocation), and
   - Proposed FY 2022-23 WDB Program Budget based on a projected allocation of $6.275 million (5% increase from fy 2022 allocation);

2. work2future Director’s authority to approve the transfer of funds between program budget line items, so long as there is no change to the overall amounts for personnel and non-personnel expenses, and if the budget transfer does not increase the Board-approved Operating Budget total.

3. work2future Director’s authority to approve the transfer of funds between the Adult and Dislocated Worker programs as needed to accommodate changes in the numbers of clients being served by the two programs.

The Executive Committee unanimously recommended Board approval at its meeting on February 24, 2022.

The three Budget Scenarios above are based on early estimates of WIOA funding allocations to be received. The California Employment Development Department (EDD) normally convey the Adult, Dislocated Worker, and Youth funding allocations to the 46 local WDBs in April/May of each year. After notification of the final allocation from the EDD is received, staff will present a balanced Program Operating Budget to the Executive Committee for a recommendation to the Board at its June 2022 meeting.
BACKGROUND AND ANALYSIS

Funding Allocations:

Based on current circumstances and preliminary State planning estimates, staff developed the scenarios as follows: AS IS or no change in allocation (base); 5% funding reduction, and 5% funding increase compared to the WIOA Adult, Dislocated Worker, and Youth final funding allocation for FY 2021-22.

Proposed Program Budgets:

Approval of the proposed budgets includes re-budgeting a total of $3,566,762 which consists of the following:

a. 15% Board-mandated Reserve carry-over funding from FY 2021-22 of $896,420
b. Adjusted Unallocated Contingency Reserve Account for Training and Other Services of $723,599
c. Projected savings through June 30, 2021, of $1,946,743 as per the December Financial Status Report

The proposed budgets also considered the setting aside of the 15% Board-mandated reserve account for FY 2022-23, which reduces the funding available for program operations for FY 2021-22 across all three budget scenarios.

It is also important to note that the projected savings, as shown above, are from the Adult, Dislocated Worker, and Youth programs funding allocations only. The Rapid Response program and other (existing and future) discretionary grants are separate programs, and therefore a separate budget discussion for these programs will be presented to the Board in June 2022 along with the updated program operating budgets for Adult, Dislocated Worker, and Youth programs. In addition, since this is a strictly program operating budget, as in previous years, the administrative budget is reported separately.
As can be gleaned from the first table above, there is a funding allocation shortfall of zero and $298,807 for the AS IS and 5% reduction scenarios, respectively. On the other hand, there is an additional funding allocation of $298,807 for the 5% increase scenario. In all three situations, the funding impact on the Proposed Operating Budget for FY 2022-23 is still greater with a funding shortfall between approximately $406,000 and $854,00 or between 5% and 10%, across all three budget scenarios due to the 15% Board-mandated carry-over funding set aside for FY 2023-24 and the 10% funding set aside for the administration of the programs.

**Recommended Budgetary Actions:**
The following budgetary actions are recommended for the Proposed Operating Budget Scenarios:

- **Personnel Costs**
  Assumed the same staffing level funded in FY 2021-22. The City’s FY2022-23 preliminary “SalFringe” (salaries and fringe benefits) report was used in the scenarios. The budget also includes a cost-of-living adjustment (3%) and employee performance and step increases (2.5%). Final budget proposal will include appropriate modifications to reflect other possible adjustments such as staffing changes.

- **Non-personnel costs**
  Assumed the same budget amount for non-personnel costs. Staff will analyze historical data to determine if additional savings can be generated and reallocated to other budget line items. This will be included in the final budget proposal.

- **Adult Client Services**
  Assumed 20% of Adult and Dislocated Worker Program Allocations is spent on SB 734 training and 10% is sourced from leveraged sources. Due to underspending related to COVID-19, additional funds are needed for work2future to be in a good position to meet the compliance requirements similar to the FY21-22 budget.
• Youth Client Services
  Assumed 20% of Youth “program” (90% of Youth Program Allocation) is spent on work experience program. Funds in addition to the required 20% are allocated to WEX, which will allow work2future to catch up with the required spending on youth training from the previous year program allocation.

• Unallocated Contingency Reserve Account
  Assumed zero amount for Unallocated Contingency Reserve Accounts.

• Distribution to Service Providers
  Assumed the same funding provisions for service providers.

The following table shows the funding impact of the above budgetary assumptions into the Proposed Operating Budget across all three budget scenarios:

</tbody>
</table>

The elimination of the Unallocated Reserve Account totaling to $723,599 reduces the funding shortfall. Thus, instead of the budget shortfall being in the range between 5% and 10% across all three budget scenarios, the budget shortfall is now between 0% and 2% and a surplus of 1% for the 5% funding increase scenario. It is important to note though, that work2future must find possible ways to mitigate the funding impact of this budgetary action when preparing the program operating budget for FY 2022-23 since this will reduce the funding available for the following year.

Given the spending trend during the first half of the current fiscal year, it is possible that additional savings will be generated from January to June 2022. This will further help in eliminating the funding
shortfall and even possibly retaining the unallocated contingency reserve account that is used to augment the current program operating budget should an unanticipated need arise, or if unspent, bridge the funding gap in the program operating budget for the following fiscal year. The savings will then be re-budgeted and reallocated accordingly. Staff will adjust all budget line items correspondingly based on its final allocation.

Moreover, a detailed budget analysis will be conducted, and certain actions will be imposed to mitigate funding risks. Staff will do the following:

- Address the additional funding shortfall through cost savings and elimination of one-time service costs that are not ongoing operational needs, with the goal of avoiding major service reductions or significant impact to employees, while helping to ensure the fiscal stability of work2future programs.
- Provide flexibility in the budget development process to allocate resources to the highest priority needs.
- Continue to structure client service delivery models, operations, and staffing to effectively deliver services.
- Pursue other discretionary grants and leverage other resources through collaboration and partnerships with other community organizations and educational institutions.

Staff will be bringing to the Board at its June 2022 meeting a balanced program operating budget along with Rapid Response, Administration, and any discretionary grants.

As in previous years, to ensure that there is sufficient operational flexibility to respond to changing conditions, it is recommended that the Board allow staff to transfer funds between budget line items so long as there is no change to the overall amounts for personnel and non-personnel, and if the requested budget transfer remains within the overall Board-approved Operating Budget.

Similarly, as in previous years, it is also recommended that the Board allow for the transfer of funds between the Adult and Dislocated Worker programs as needed to accommodate changes in the numbers of clients being served by the two programs without having to return to the Board for approval.

Youth Forum Report for 3/17/22 — Jack Estill

The Youth Forum met several times since the last full Board meeting of work2future. Based on feedback from both youth leaders and surveyed youth with lived experience, the Forum decided to look at three areas of particular concern: homelessness, mental wellness, and staff training. We held separate meetings focusing on each area. We invited a guest speaker(s) with extensive knowledge to outline the current state of each. Chad Bojorquez led the talk on homelessness and gave an excellent account of the strategies currently being used to reduce local homelessness. He stressed that targeting particular populations, as was done with veterans, was successful strategy. The next group that would be targeted is homeless families with young children. There is much more to be done.

Linda Hsiao from County Mental Health Services spoke next about current mental wellness services. Hsiao used a slide deck that outlined the various services available to transition-age youth (TAY), 16 to 25, along with additional services available to younger youth. The primary initial access point is a telephone number, 800.704.0900. She explained the various services and supplied a simplified “cheat” sheet. Hsiao indicated that these services are primarily only for MediCal clients. Those covered by private insurance need to go through their own insurance for services outside emergencies. However, there is an allowance for unsponsored youth. The presentation slides are available separately. Hsiao then opened the floor to further questions.

Our third group of speakers was from Teen Success Inc. (TSI). Sandra Flores, Niki Singleton, Kathy Koo, and Sarah Villa provided a look at their TSI model for staffing. Teen Success has received positive comments from lived-experience youth on TSI staff engagement. Niki Singleton and Sarah Villa began the staffing discussion with an outline of TSI’s program that is centered around teen pregnant and parenting moms. TSI provides advocates who help with GED attainment and work opportunities, individual services, general and reproductive health, literacy, and mentoring services. They bring a broad array of services (wrap-around services) tailored to each youth. TSI works with the entire family even though their primary clients are pregnant and parenting moms and children. The advocates also have a strong support system that includes regular training in coaching, boundary setting, early child development, and weekly feedback sessions with managers along with outside counseling support, and continuous improvement feedback that includes feedback from youth and youth client participation in the interview process. TSI also provides intra-organizational meetings to share their community of practice. Staffing still presents challenges, particularly in the face of Covid. Turnover is a continuing problem. More work needs to be done here to formally outline best practices.

After these focus groups, it has become obvious that there is much that can be done to better organize current youth services. The forum hopes that work2future can be a catalyst for more youth engagement in youth services delivery and that efforts can be focused on those youth with the greatest barriers, including foster, justice-involved, homeless, pregnant and parenting, out-of-school and out-of-work youth. The Youth Forum steering committee is currently working on a set of recommendations to be presented to the Executive Committee in April that will outline how work2future can help fulfill its convener role under WIOA.
